

Sporting Clays

Deep River Sporting Clays and Shooting School offers shooting enjoyment to families and friends, as well as, an excellent alternative for relaxing business meetings or client entertainment. Deep River is conveniently located within 50 minutes of Pinehurst on 65 acres of scenic North Carolina woodlands. The main course offers 13 different shooting fields. Compact Sporting offers shooters five stations with eight trap launchers. Compact Sporting offers shooters five stations with eight trap launchers on an international wobble trap.

Sporting Clays is comparable to golf. Just as a golfer goes from hole to hole, a Sporting Clays shooter goes from one station to another. Sporting Clays emulates hunting using clay targets instead of live game. Clay targets can be thrown to simulate the flight patterns of low-flying ducks, teal coming off the water or woodcock zipping through the trees. They can even replicate the pattern of a hopping rabbit. This makes the sport challenging enough to be stimulating, but it is not so difficult that it becomes discouraging. A shooter does not need a brilliant score to get a high degree of satisfaction. It generally takes 4 people to complete the course in 1.5-2 hours.

Please dress comfortably casual with walking shoes.
